

Dear university professor/teacher,

We approach you on the issue of awarding a thesis of your university.

The Finntesting Association awards annually an incentive prize to an author of a meritorious **Master's thesis or a diploma thesis** related to testing or laboratory field. The amount of the prize is 500 €.

The selection will be made on the basis of the following selection criteria:

- The thesis acts as a catalyst for deepening or expanding research
- The thesis provides a basis for the continuous development of the operation
- The thesis includes a new innovation for the field
- Various operational quality criteria and statistical methods have been applied and utilized in the thesis

The thesis is not required to meet all the criteria described above.

We ask you to nominate your candidate for the prize of **the theses completed at your university in 2023** on the basis of the selection criteria described above. We ask you also to justify why that thesis is your choice. We are also pleased to take a copy of the thesis for

We are waiting for **your reply by 07.06.2024, preferably by e-mail, with the thesis or link to it** (will be treated confidentially) to adress: marja-leena.kuitunen(at)alumni.helsinki.fi.

If this is not possible, the proposal can be sent to:

Finntesting Association
c/o Teemu Näykki
Finnish Environment Institute
Mustialankatu 3
00790 HELSINKI
